

Dairy Research Symposium 2018

TRANSFERRING RESULTS FOR ACTION

AGENDA – FEBRUARY 9, 2018

BALLROOM (Translation available)			
8:00 am - 8:10 am	Welcome <i>David Wiens, Chair of the Canadian Dairy Research Council</i>		
8:10 am - 8:30 am	Dairy Research for a Healthy World - Highlights <i>Isabelle Neiderer, Director, Nutrition and Research, Dairy Farmers of Canada</i>		
8:30 am - 10:00 am	Milk Products: The Total Package <ul style="list-style-type: none"> • Dairy and prevention of type 2 diabetes - <i>Anthony Hanley, University of Toronto</i> • The effects of dairy on subjective appetite and post-prandial glycemia - <i>Harvey Anderson, University of Toronto</i> • Dairy products and bone health - <i>Hope Weller, McGill University</i> • Dairy and metabolic syndrome - <i>Hassan Vatanparast, University of Saskatchewan</i> • Dairy products and cardiometabolic health: the role of dairy matrix - <i>Jean-Philippe Drouin-Chartier, Laval University</i> <p>Panel Discussion - Q & A</p>		
10:00 am - 10:15 am	Genetics and Genomics - Tools for Dairy Business Improvement <i>Jacques Chesnais, Genetics Consultant, Canadian Dairy Network</i>		
10:15 am - 10:40 am	NUTRITION BREAK AND ROOM TRANSFER		
	BALLROOM (Translation available)	QUEBEC SUITE	L'ORANGERIE
10:40 am - 11:20 am	Workshop – Automatic Milking Systems: Rising up to the challenges of transition and production <i>Ed Pajor, Univ. of Calgary</i> <i>Trevor DeVries, Univ. of Guelph</i> <i>Facilitator: Julie Baillargeon, Valacta, member of the DFC Dairy Production KTT Experts Committee</i>	Workshop – The costs of mastitis and emerging strategies for prevention <i>Simon Dufour, Univ. of Montreal</i> <i>Herman Barkema, Univ. of Calgary</i> <i>Facilitators: Steven Roche, ACER Consulting and H�el�ene Poirier, CBMQRN, members of the DFC Dairy Production KTT Experts Committee</i>	Workshop – Benchmarking dairy cattle comfort and new practices for calf care <i>Doris Pellerin, Laval Univ.</i> <i>Elsa Vasseur, McGill Univ.</i> <i>Derek Haley, Univ. of Guelph</i> <i>Facilitators: Doris Pellerin and Marianne Villettaz Robichaud, Laval Univ.</i>
11:20 am - 12:00 pm	Workshop – The costs of mastitis and emerging strategies for prevention	Workshop – Benchmarking dairy cattle comfort and new practices for better calf care	Workshop – Automatic Milking Systems: Rising up to the challenges of transition and production
12:00 pm - 1:00 pm	LUNCH (Ballroom)		
1:00 pm - 1:40 pm	Workshop – Benchmarking dairy cattle comfort and new practices for calf care	Workshop – Automatic Milking Systems: Rising up to the challenges of transition and production	Workshop – The costs of mastitis and emerging strategies for prevention
BALLROOM (Translation available)			
1:40 pm - 2:00 pm	NUTRITION BREAK		
2:00 pm - 2:30 pm	New science for dairy sustainability <ul style="list-style-type: none"> • Dairy Sustainability: Water - <i>Andrew VanderZaag, AAFC - Ottawa</i> • Increasing the energy of Canadian forages fed to high producing dairy cows - <i>Annie Claessens, AAFC - Quebec</i> • Balancing dairy rations for protein: filling the gaps and updating formulation models to reduce protein intake - <i>H�el�ene Lapierre, AAFC - Sherbrooke</i> <p>Panel Discussion - Q & A</p>		
2:30 pm - 2:45 pm	NextGen Dairy Research - Student Video Contest <i>Prizes presented by Pierre Lampron, President, Dairy Farmers of Canada</i>		
2:45 pm - 3:00 pm	Wrap up and the way forward - Facebook LIVE! <i>�mie D�silets, Assistant Director, Research, Dairy Farmers of Canada</i>
